

## Residential Pricing & Charges 2017

### Residential Water Usage Charges

Water charges for residential customers are made up of:

- A **Base Water Service Charge** for operating the water system.

- A **Water Usage Charge** is applied to the volume of water used by an individual customer. Usage charges are measured in kilolitres (kL).

The base water service charge shown below is for a full year. Residential customers receive a bill from Lancelin South 4 times a year for their Residential Water Usage and Service Charge.

Residential Water Usage / Charges	
Base Water Service Charge	\$220 per annum (\$55 per quarter)
Water Usage Charge - Potable (Drinking)	\$2.00 per kL water used
Water Usage Charge- Non-potable (Irrigation)	\$1.45 Per kL water used

### Sewer Charges

Residential Sewage Service consists of an annual fixed service charge only. This will be charged annually to the owner of the property. Sewer charges for residential customers are made up of:

- A **Base Sewer Service Charge** that covers most of the costs of operating the sewer system.

Residential Sewer Charges	
Base Sewer Service Charge for a stand-alone dwelling	\$890 per annum

**If you are having trouble paying your bill, please refer to the Financial Hardship Policy, or call (08) 9655-1555 to look at getting on a payment plan.**
